

NINER CHOICE PROPERTY SPOTLIGHT

What are some of the most popular resident events or gatherings you host during the school year?

"Our residents really enjoy interactive, hands-on events where they can hang out and take a quick break from studying. A few big hits this year have been our flower bouquet making, Matcha Mondays, custom perfumery stations, and Earth Day plant potting."

What dedicated spaces or amenities do students use most for studying or unwinding after classes?

"Since we're right across the street from campus, students take full advantage of our 5 private study rooms, 24/7 computer center, and 24-hour coffee bar when they need to focus. After class, everyone usually heads over to unwind by our 110,000-gallon resort-style pool or to hang out at the dog park with their pets."

WHOS WHO AT UNC CHARLOTTE

For students who aren't familiar, could you explain what the Campus Activity Board (CAB) does and what your role consists of?

"The Campus Activities Board is UNC Charlotte's largest student-funded organization, and our students primarily organize student-focused activities encompassing live programming (i.e., comedy shows), off-campus exposure (e.g., theatre, sports, etc.), and social events to unite Niners across campus. My role as graduate assistant largely focuses on performing various administrative tasks to assist our undergraduate program coordinators and executive board members, planning and executing our annual Haunted Union and End of Year Banquet programming, and providing day-to-day logistical, social, and emotional support to our awesome students."

How can off-campus students utilize CAB as a resource to get involved on campus and meet other students?

"Because most of our programming does not require prior registration or experience, off-campus students can utilize CAB as a conduit for increasing their campus involvement by viewing our events as low-stress opportunities to connect with other students! With the exception of our ticketed off-campus programs, all of our events are intended as invitations for no-strings-attached connection with fellow Niners. I highly recommend monitoring NinerEngage and Instagram (@cabunccharlotte) to check out our daytime programming."
